KBTC

The KB series combines all the benefits of great tasting bottled water with a portable automatic coffee brewing station. Recognizing that a cup of coffee is 99% water, it only makes sense to have greater control of the overall recipe to ensure great tasting coffee. The KB models incorporate features such as: a gravity fed hot water faucet, a ready light, accepts 2 - 6 gallon plastic bottles, and offers all the benefits of a automatic brewer without plumbing. Enjoy freshly brewed coffee made from great tasting bottled water with every brew.
